Embroiderers' Guild of America

The mission of

The Embroiderers' Guild of America is to inspire passion for the needle arts through education and the celebration of its heritage.

<https://legausa.org/>

Our purpose is to practice, share, and learn the art of embroidery. We have an active program of education and study with a goal of preserving the heritage of the art of needlework.

We strive to share our talents with the community through various programs which include teaching children the art of embroidery, participating in community outreach programs, and by showcasing the art of embroidery at our biennial show.

The guild is the place for you to form friendships with people who also love embroidery and will support you in your needlework projects. Membership is a great way for you to learn new techniques and improve the ones you already have.
